EXAMINATION AUTOMATION MANUAL

INTRODUCTION

For any formal process of learning, evaluation is an important phase for measuring the effectiveness of learning amongst the learners. Therefore, examination section plays an important role in any educational institution. Similarly, in University of Kashmir (UoK), since its inception, the examination section is continuously discharging its role, duties and responsibilities for the betterment of learners, university and the society. However, changing expectations of the stakeholders have also get reshaped over the period of time. Considering these new expectations and underlying changes, UoK has identified the need for upgrading the examination processes and digitize it to ensure speed, efficiency, accuracy, transparency, ease of record keeping, and quick retrieval of information and documents.

ABBREVIATIONS:

UoK: University of Kashmir

ABSTRACT

Education has always been the building block of a society and a nation, so is the effective evaluation of formal learning. Due to an increase in access to education and higher enrollment, timely evaluation and declaration of results is continuously affecting the governance of examination process and procedures of University of Kashmir (UoK). Therefore, digitization, at various levels in the examination process, has been initiated as an appropriate solution for timely preparation and declaration of examination results of UoK. Digitization has been initiated right from enrolling a fresh or existing learner in an academic session, continuously monitoring and modifying the process, whenever required, till the declaration of result. This processes not a step by step process, rather it is a continuous process having various stages entwined with each other. This process has helped in reducing the time involved in conducting the examination and declaration of results, which begins with preparation of date-sheet of examination in a precise & concise manner.
