Minutes of the meeting of Board of Research Studies in Biological Sciences held on 08-02-2020 at 11:00 A.M. in the Committee Room of the Administration Block.

1) Prof. Talat Ahmad
Vice-Chancellor

Chairman

2) Prof. Zafar A. Reshi
Dean Research

3) Prof. Akbar Masood
Dean Academic Affairs

4) Prof. Irshad A. Nawchoo
Dean, School of Biological Sciences

5) Registrar

6) Head, Deptt. of Biotechnology

7) Director, CORD

8) Head, Deptt. of Botany

9) Head, Deptt. of Zoology

10) Head, Deptt. of Biochemistry

11) Coordinator, Deptt. of Nanotechnology

12) Coordinator, Bioresources Programme
Assistant Registrar Research was also present during the meeting.

At the outset, Dean Research requested the Hon'ble Vice-Chancellor for his valuable introductory remarks.. The Vice-Chancellor in his introductory remarks desired that:

1. Meetings of the Board of Research Studies should be held regularly after every six months so that the scholars do not suffer for want of their timely registration for research degree programmes.
2. Scholars should be advised to give presentation about their research works after every six months as provided in the statutes so that work done is assessed and timely suggestions for improvement of research are provided to the scholars
3. Candidates having qualified JRF/NET / SET/GATE and other similar UGC accredited tests need to be encouraged for admission to research programmes.
4. Faculty members need to submit research proposals for funding to the funding agencies so that the scholars not in receipt of fellowships/scholarships are provided financial and other support.

In his remarks, Dean Research made the following remarks:

1. Quality research has been the hallmark of the School of Biological Sciences based on third-party evaluation of research quality carried out various departments/centres of

the University. However, there are variations in the quality of research across departments in the School and across supervisors in a department of the School.

2. Not many synopses have supervisors across departments which reflects poorly on the much needed interdisciplinary research in the university. In this regard, collaborations with SKIMS, Animal Husbandry deptt, Wildlife deptt. Forest Department and similar departments need to be initiated and strengthened so as to focus on the problems that are directly relevant to the society and would create national centres of excellence in some particular areas.
3. Delay in conduct of examination of three theory papers/BORS/Entrance Test for admission to research degree programmes/ communication of vacancies to the office of Dean Research hinders timely conduct of Boards of Research Studies and issuance of admission notification for research degree programmes.
4. Timely sanction and release of university fellowships in favour of bonafide and deserving scholars needs to be ensured by the concerned Deans' of the Schools.
5. Strict adherence to the statutes governing the research degree programmes, including having HVC's nominee on the DRC, meetings of RPAC etc.

Subsequently agenda was taken up for discussion.
