Institutional education is not new to Kashmir as it used to be known as *Sharda Peeth* (Seat of Learning) in ancient times and people from every nook and corner of the world would come to Kashmir in the pursuit of knowledge and wisdom. The University of Jammu and Kashmir was founded in the year 1948, and later bifurcated into two full-fledged Universities: University of Kashmir at Srinagar and University of Jammu at Jammu. The University of Kashmir situated at Srinagar, is flanked by the world famous Dal Lake on its eastern side and Nigeen Lake on the western side. The Main Campus of the University spread over 247 acres of land is divided into three parts – Hazratbal Campus, Naseem Bagh Campus and Mirza Bagh Campus. Additional 300 kanal of land have been acquired at Zakura near the main campus for further expansion of the University. Besides Anantnag (South Campus) and Baramulla (North Campus), three more Satellite Campuses at Kupwara, Kargil and Leh have been established to make higher education more accessible to people living in remote areas.

The University is committed to provide an intellectually stimulating environment for productive learning to enhance the educational, economic, scientific, business and cultural environment of the region. The University offers programmes in all the major faculties; Arts, Business & Management Studies, Education, Law, Applied Sciences & Technology, Biological Sciences, Physical & Material Sciences, Social Sciences, Medicine, Dentistry, Engineering, Oriental Learning and Music & Fine Arts. It has been constantly introducing innovative / new programmes to cater to the needs and demands of the students and the society and is presently floating UG, PG, Diploma and Certificate programmes with M.Phil and Ph.D research programmes.

In tune with the needs of the present day world, scholars are encouraged to take up high profile research problems in science for explorations and they are successfully becoming part of big projects involving national and international interests. A lot of research in science is being extended to areas having direct or indirect ramification to human welfare. Recognizing our socio-environmental obligations, University of Kashmir is seriously pursuing active independent and collaborative research on issues such as, Climate Change, Alternative Sources of Energy, and Biological Invasions. We at KU are not only addressing the contemporary socio-economic, political and environmental challenges, but are addressing the future concerns as well.

Over the years, the University has marched towards excellence in its programmes and activities. It has been re-accredited as Grade-A University by the National Assessment & Accreditation Council (NAAC) of India in the year 2011. This is the recognition and reflection of the high standard of quality in teaching and research at the University of Kashmir

We at present are not only consolidating and strengthening existing educational programmes and infrastructure, but new, creative, innovative and futuristic programmes are being introduced through participatory engagement of teachers, scholars, students and learned members of the civil society. Several departments are being encouraged to submit proposals under Special Assistance program (SAP) of the University Grants Commission so as to position the University for the award of the University with Potential for Excellence (UPE) status and already tens of KU departments have received financial assistance through SAP and FIST. A mega project of *e-governance* is currently underway in the University and its results are encouraging.

The University believes in the pre-eminence of autonomous research, so that it comes up with brainstorming ideas to pioneer radical innovations. The University, undoubtedly, has kept pace with the world at large and not lost sight of its primary purpose of offering programmes of scientific and technical education that conform to the employment requirements of both the corporate world and the industry.

Message from the Vice-Chancellor

I am glad to learn that our Directorate of Internal Quality Assurance is bringing out the fresh issue of its Annual Quality Assurance Report for the year 2014.

The University of Kashmir has registered an exponential growth since its inception in 1948 upholding its legacy of academic excellence in teaching, training and research. The University of Kashmir has been instrumental in bringing about the requisite transformation in the society by evolving into an institution of relevance in a knowledge-based economy. The University undoubtedly, has kept pace with the world at large and not lost sight of its primary purpose of offering programmes of scientific and technical education that conform to the employment requirements of both the corporate world and the industry.

Through this document Directorate of Internal Quality Assurance (DIQA) documents achievements and weaknesses of University of Kashmir and presents them before the stakeholders and society. The compilation of the Quality Assurance Report 2014, under the aegis of the DIQA is aimed at not only highlighting the achievements of the University but also to identify the priorities that call for focused attention so that we are in a position to make this University a globally competitive institute of higher learning.

Seven parameters have been put forth for the Annual Quality Assurance Report and these include: 1) Curricular Aspects, 2) Teaching, Learning and Evaluation, 3) Research, Consultancy and Extension, 4) Infrastructure and Learning Resources, 5) Student Support and Progression, 6) Governance, Leadership and Management, and 7) Innovations and Best Practices. While going through the Quality Assurance Report 2014, I believe that the University has made significant progress in every sphere of the activity which can be seen from the comparative data provided in the report.

Over the years, the University has marched towards excellence in its programmes and activities. It has been re-accredited as Grade-A University by the National Assessment & Accreditation Council (NAAC) of India in the year 2011. This is in recognition and reflection of the high standard of quality in teaching and research at the University of Kashmir.

The University has taken a big initiative in introducing Choice Based Credit System (CBCS) from academic session 2014 and the curriculum has been modified altogether to suit the new scheme. The evaluation of teachers by students has been completed in all the Departments for all the campuses to address the deficiencies in teaching-learning process. The infrastructural and learning resources are being constantly upgraded to address the growing needs of the students and same holds true for the support services.

I heartily compliment Director DIQA, and his team for preparing the Quality Assurance Annual Report 2014, and hope like previous years it proves a catalyst to University functioning and will be beneficial to the society at large.

Prof. Khurshid I Andrabi

From the Desk of the Director

“When An Object Or Purpose Is Clearly Held In Thought, Its Precipitation, In Tangible And Visible Form, Is Merely A Question Of Time. The Vision Always Precedes, And Itself Determines The Realization.”

With an aim to provide quality education at affordable modus operandi, Directorate of Internal Quality Assurance put forth efforts to make this university a repository of knowledge and diverse activities of human interest be it academic, scholastic, curricular and community services that are needed for putatively educational, physical and mental development of the students of new age by documenting the strengths and necessities of the University as an Annual Quality Assurance Report. The compilation of the Annual Quality Assurance Report 2014, under the patronage of DIQA is an opportunity to identify the priorities that call for focused inquisitiveness to contrive the university globally, encyclopaedically Prior and competitive institute of higher learning. The précis like previous years is an exercise aimed at undertaking self introspection of the teaching-learning pedagogy, research and extension modules of the University of Kashmir.

The National Assessment and Accreditation Council has also emphasized and accentuated the publication of Annual Quality Assurance Report as per their prescribed methodology and modules where curricular aspects, teaching-learning and evaluation, research consultancy and extension, infrastructure and learning resources, students support and progression, Governance, leadership and management, innovations and best practices with future stratagems have been extensively emphasised as an essential and pivotal components. It is with this inducement and impulse that the Directorate of Internal Quality Assurance anatomize, congregates, collates, substantiates, complies and analysis the information on the every relevant specification procured from Directorates/ Campuses Departments/ Centres/ Units of the university which forms the essence for the total quality management. Such an exercise has become all the more predominant in view of the paradigm shift in the higher education policy of the country which lays more emphasis on the augmentation of new knowledge, quality and innovation.

The present era of higher education is considered as the “Golden Age” due to the comprehensive role of institutions of higher learning with the hawk’s eye on them for their performances. The vision, mission and actions at University of Kashmir at transforming an individual into a complete human being by providing value based education and learning and initiatives of university are intended to arouse a craving among its students to explore the meaning of life and develop and passion for new knowledge. Understanding the power of youth and their quest for knowledge, we have designed the curricula and academic activities to cater to these needs and aspirations. Our academic programmes are designed to facilitate the students to channelize their curiosity and project their best talent manifested in academic and co-curricular performance. They are groomed to take all the challenges of life in their stride.

For research initiatives, national and international agencies are funding good number of research projects of our faculty, quality publications of the faculty in journals of repute and the number of faculty members receiving prestigious awards and fellowships bear testimony for the same. Our DIQA website portal,

which has been recently revamped, is now able to give its stakeholders a taste of the quality and breadth of the activities being undertaken by University of Kashmir. The website is being appreciated for its dynamism, interactive features, ease of use and its novel design, generating renewed interests from the Kashmir university network. Thus, it is evident that the university had made significant progress and has widened its path for excellence in every sphere, which can be visualized from the comparative data being provided in this Annual Quality Assurance Report of 2014.

I am sanguine that this Annual Quality Assurance Report will turn out to be a authentic prototype of an information repository of overall teaching-learning, scholastic, curricular, qualitative and capitative resource domain of the university. We intend to perpetually innovate and modernize the Annual Quality Assurance Report in tune with the needs and demands of our stakeholders and constantly match up their expectations.

In future, as our work proceeds in all these areas, we always will openly share results and outcomes so our field can collectively improve in better serving the university educational system in particular and related communities in large. For University of Kashmir, innovative teaching, significant research, and helpful public service guide our efforts, and we look forward to working with our colleagues across in striving for continuous improvement.

I owe my sincere gratitude to Prof. Khurshid I Andrabi, Hon'ble Vice-Chancellor for his patronage, guidance and belief which pave ways for us to accomplish this task in a hassle free manner. I am also thankful to Prof. Zaffar A Reshi, Registrar, university of Kashmir for his continued guidance and critical appraisals, time and again, which had helped us to make the report better.

I owe my sincere gratitude to Dean, Academic Affairs, Dean Research, Controller of Examination, all the heads of the University Departments/Directors of the various Centres/Campuses and all the officers of the Registry for providing information on different aspects of their respective Departments/Centres/Units.

My heartfelt thanks to my editorial team, officials of the DIQA and my research scholars, who worked relentlessly in preparing this report. I am beholden to my family who spared me on whole-time basis for this endeavour and never complained about my not paying attention to domestic affairs. *Especially, my kids to whom I am their world and demands to be with them to guide them about their studies but unfortunately due to my absence they manage their academic affairs independently, hence deserves special mention.*

Poised for progress and buoyed by the widespread support, we are open to any suggestions or constructive criticism in this regard, we press forward with optimism. Thank you for your support as we prepare for 2014 and make Waves for a future bright with promise.

2.14 Significant Activities and contributions made by IQAC (DIQA)

- Directorate of Internal Quality Assurance (DIQA) right from its inception as Internal Quality Assurance Cell (IQAC), till its present status as Directorate, has all along been striving for quality assurance at University of Kashmir and the already achieved results are very encouraging.
- This year our University has taken a big initiative by introducing Choice Based Credit System (CBCS) for all PG programmes and the curriculum has been modified altogether to suit the new scheme.
- The evaluation of teachers by students has been completed in all the Departments for all the campuses to address the deficiencies in teaching-learning process.
- The infrastructural and learning resources are being constantly upgraded to address the growing needs of the students and same holds true for the support services.
- From 2013 onwards DIQA has published its reports in two parts: (1) Annual Quality Assurance Report and (2) Annual Report. Both the reports are available in the form of a hard copy as well as on our website: www.diqa.uok.edu.in
- DIQA has also developed online submission of the Performance Based Appraisal System (PBAS) for the faculty of the University of Kashmir based on the guidelines prescribed by University Grants Commission (UGC) and considering the individual needs of our University.
- The DIQA has also conducted annual department audits analyzing the strengths and weaknesses of the departments and providing suggestions on areas of improvement for the individual departments.

2.15 Plan of Action by DIQA/Outcome

The plan of action chalked out by the DIQA in the beginning of the year towards quality enhancement and the outcome achieved by the end of the year is briefly outlined as under:

Plan of Action	Achievements
Setting benchmark indices for assessment of quality indicators	The management information system (MIS) has been successfully implemented for assessing the quality indicators.
Revision of Performance Based Assessment Scheme for the faculty of University of Kashmir	DIQA has revived the Performance Based Appraisal System (PBAS). With the PBAS, the institute evaluates faculty members on their teaching and research performance. The institute has instituted Teacher of the Year award given on the basis of student feedback and Peer Review System. The evaluation of student feedback helps the faculty members in improving upon the teaching pedagogy and also motivates the faculty members for doing better research work and publications.
Focus on Faculty Development programmes with laid emphasis on Visiting Professors from international and national level	DIQA impressed upon various departments and research centres to organize maximum number of faculty development programmes which resulted in the organization of 21 faculty development programmes for the year.
Introduction of new courses with focus on Entrepreneurial Development Programmes	A number of certificate entrepreneurial programmes e.g. Repairing of Mobile Phones, Solar cookers, Laptops, transformers etc have been introduced by the institute to enable the students to have an edge over their professional degrees and suited in the outside market.
DIQA Web Portal as information repository of the University of Kashmir	<p>With the implementation of e-governance project many governance issues are being addressed electronically. The inception of DIQA web portal have brought all the Department /Faculties / Section / Centres under one umbrella to update their information.</p> <p>Online submission of information for Annual Report and AQAR of all Departments and individual faculty members which was introduced earlier in 2013 was amended in order to be more user friendly and comprises all vital implication and indexes. The link is available on University website: www.kashmiruniversity.net and DIQA Portal</p>

1.2 (i) Flexibility of the Curriculum: CBCS/Core/Elective Option/Open options

- The University of Kashmir has introduced Choice Based Credit System (CBCS) in its entire Masters Programmes from the session with the aim to provide required flexibility to the students to choose optional courses within and outside their departments. The Choice Based Credit System has proved to be an important part of reform process to enhance quality in higher education. The system allows a paradigm shift from teaching oriented to learner centric mechanism in the higher educational institutions. It provides opportunities to the learners to understand the subject at their own pace, develop analytical abilities, critical thinking and capacities to solve problems. The system allows flexibility to the learner to choose different courses in the process of accumulating the credits. While allowing to develop disciplinary knowledge, it allows knowledge of interdisciplinary subjects as per the choice of learner and course offerings by the institution. Moreover, the learning is inclusive based on lecturing, tutorials and project/lab work/field work.

2.12 How does DIQA Contribute/Monitor/Evaluate the Teaching & Learning processes:

Some of the key points highlighting the role of IQAC/ DIQA for teaching and learning process are as follows:

- DIQA monitors and evaluates the teaching and learning process with the help of various committees and coordinators like Internal Assessment Coordinator, Examination Coordinator, Faculty Nodal Officer etc.
- The DIQA has appointed faculty Nodal Officer for each Department who looks after smooth conduct of classes. The Nodal officers also take regular feedback from the students to ensure effective learning all subjects. Along with this the Nodal Officer of DIQA also arranges for extra mural lectures and resolves the student's problems relating to subject, research project and other difficulties faced by the students.
- The DIQA also encourages the Departments/ faculties to invite guest speakers from other Institutions/ Industry to enrich the knowledge base of students through sharing of ideas and good practices. Every Faculty organizes special talks, lectures by inviting eminent personalities to the department as a provision by providing them honorarium out of DIQAU fund.
- The DIQA is fully equipped with latest Information and Communication Tools like Wi-Fi Campus, Internet facility, Audio visual Aids for classroom teaching etc. The faculty members are also required to use modern teaching aids such as PowerPoint/ LCD etc during their lectures.
- DIQA has started Performance Based Appraisal System (PBAS). With the PBAS, the institute evaluates faculty members on their teaching and research performance. The institute has instituted Best Teacher Award given on the basis of student and peer feedback. The evaluation of student feedback helps the faculty member in improving upon the teaching pedagogy and also motivates the faculty members for doing better research work and publication. Beside this, student feedback on course content and subject taught along with the feedback on the faculty members is taken in every semester as a measure to have academic audit and thereby improving upon on all the functional areas.

3. Research, Consultancy and Extension

3.1 Initiatives of the DIQA in Sensitizing/Promoting Research Climate in the Institution

- DIQA encourages research and promote the research climate in the institution by providing different facilities to the faculty members and students besides regularly organizes Conferences, Research Methodology Workshop, Faculty Development programs and Academic forums to provide in-house research platform to all the faculty members.
- DIQA analyzes the PBAS of each faculty and advises individual faculty on areas which can be improved upon. Many faculties have been encouraged to pursue PhD programmes and guidance for research publications is also provided.
- As quality policy, all the regular faculty members are encouraged to undergo for Post Doctorate fellowship research programmes for two years fellowship thus making the research environment at the institute flexible for the faculty to upgrade their research skills.
- The Dean Research is also providing inputs on various schemes launched by central government funding agencies and faculties are encouraged to submit proposals to the same. Some of the University departments have received funding under DST-FIST programmes.
- DIQA encourages different departments to organize national level research paper contest annually to promote students participation in research. The students are also advised to present their research papers in the international and national conferences organized annually by the institute under the banner of Kashmir University. Further, the students are also encouraged to present and publish their research work in other conferences and journals also.
- DIQA also encourages, monitors and guides the students about the Major and Minor Research projects which they need to undergo as a part of their curriculum The students are required to undergo major research project as a part of their curriculum.

4.3 Library services:

- Allama Iqbal library (the largest in the state) is presently the main Library of the University of Kashmir, having fifty seven (57) Departmental Libraries functioning with different Departments/ Centres/ Directorates/ Institutes of the University, housing more than Six Lakh (6,00,000) books and over 8000 electronic journals. Library automation in Allama Iqbal Library started way back in 1995 and since then has made many significant moves from its isolated past into integrated system and networked operations. The Allama Iqbal Library has 21 Divisions in well decorated and centrally heated halls (First Floor only) managed by well qualified professional staff. The library also provides useful and research oriented services to the reading community in calm, cozy and clean atmosphere.
- Besides, the library distinguishes itself in offering up-dated access to thousands of online Journals and databases. Through this service the Allama Iqbal library projects a unique image by offering full-text of the current and back volumes of more than 8,000 internationally reputed journals on Sciences, Social Sciences and Humanities across the campus network as well as outside the campus through Remote Access Facility.

Through this service the Allama Iqbal library projects a unique image by offering full-text of the current and back volumes of more than 8,000 internationally reputed journals on Sciences, Social Sciences and Humanities across the campus network as well as outside the campus through Remote Access Facility.

Following are the distinguishing features of Allama Iqbal Library, University of Kashmir

- The only library of the state using State-of-the-art RFID (Radio Frequency Identification) technology;
- Internet Browsing centre at the First floor having both LAN and Wi-Fi Connectivity with more than 45 computers installed;
- e-Resources centre at second floor having 39 computers where some are dedicated for browsing and some for multimedia access;
- International Resources cell which provides platform to student/scholars/faculty for sharing knowledge and learning experience on International Issues;
- Library Innovation & IT-Support Centre which takes up innovative assignments and projects for providing better services to the library users. The centre offers counseling, consultancy, guidance & assistance not only to the users of Allama Iqbal Library but to other Libraries of the J&K state also. Besides the centre maintains all the IT related services of Library;
- 24 x 7 Library Facilities Centre at the basement of the library which remains open round the clock throughout the year. Daily locals, national and some international newspapers are also displayed here;
- State-of-the-art auditorium (Ibn Khaldun Auditorium) having capacity of 220 seats. Large number of functions and events are organized in the auditorium throughout the year;
- A cafeteria, namely "The Library Café", especially to benefit the users of library;
- A well decorated "Meeting Hall" at the basement of the Library which provides opportunities to conduct meetings with the eminent people of the valley and abroad.

In terms of computerization and IT services the Allama Iqbal Library:-

- Has been fully automated and library at present is using world renowned Library management Software (LMS) known as Virtua. Library has its own Online Public Access Catalogue;

The individual department/institution proposes reforms to the Academic Council of the University with recommendations of the concerned/respective board of studies (BOS). The Academic Council places the recommendations to the University Council which is then communicated to the Controller of examinations.

Examples of major reforms made in the last academic year include

- Postponement of examination due to September, 2014 floods and successful conduct of the same during vacation.
- Online declaration of results

6.10 What efforts are made by the University to promote autonomy in the affiliated/constituent colleges?

The institution and its leadership are defined within the university structure. The university and institution policies and procedures clearly define respective authority and responsibility. The university and institution leadership collaborate to secure adequate human, physical, technological, educational, and financial resources to maintain and advance the programme. The institution contributes to the activities and governance of the university. The following mechanisms provide for autonomy of the institutions.

- The Governing body for individual college comprising of representatives from University decide the strategic plan and requirements of the institutions.

- The Board of Studies (BOS) at each institutional level is empowered to recommend syllabus/curriculum changes or changes to the evaluation/assessment methods.
- The Deans/Principals of the individual colleges are members of the Academic Council, the academic decision making body where they can raise their concern.
- Constituent colleges Principals/Senior faculty are members of academic council, planning and monitoring board, library committee, hostel committee, research co- ordination council, hostel committee, IQAC and many others wherein they can raise concerns pertaining to individual institutions. Colleges enjoys maximum autonomy in students admission and introduction of new courses etc
- 33% of marks are awarded by the colleges internal assessment and the rest by the university examinations.

Further it is expected that academic staff of the college will have the responsibility and opportunity to suggest the changes to any and all of these policies, as the need arises, through the established mechanisms of faculty meetings and retreats.

6.11 Activities and support from the Alumni Association

- University of Kashmir has a strong Alumni base under the banner of KUAA and every year institute confers the Outstanding Alumnus Award to its Alumni, who have achieved excellence in the respective field. On the hand, every year institute organizes Alumni Meet, which acts as a platform for the final year students to get acquainted with industry need, demand and current trends.
- The alumni association also has generated a corpus fund to be used for the benefit of the meritorious and other Students belonging to poor, orphan and physically challenged category.
- The Alumni Association also operates 2 schools of middle standard, where free education is imparted to the students belonging to poor and down-trodden community.

6.12 Activities and support from the Parent – Teacher Association

- University of Kashmir makes efforts to involve parents in various bodies like Anti Ragging Committee etc. University also tries to involve parents at different levels like in some events and cultural programmes. The University of Kashmir also make efforts to receive feedback from parents on the educational process, infrastructure, and hostel facilities and the feedback is used for constant up- gradation of facilities

6.13 Development programmes for support staff

- One long training programme was organized by the university under the banner of UGC-Academic Staff College to acquaint the non teaching employees to the latest and advanced ICT applications.
- One week long workshop on financial accounting was organized by the university for the Ministerial Staff of the university, to the level of Head Assistants / Section Officers.
- Two day workshop was organized by the institution for the administrators of the colleges and university on effective management.

6.14 Initiatives taken by the institution to make the campus eco-friendly

- Messages have been displayed on Gate of each class room to 'Switch Off' Lights, Fans, LCD in class room before leaving, 'Remove the plug from the socket' whenever appliances are not in use.
- The weather at Kashmir being moderate throughout the year, installation of air conditioning units have been kept to the minimum and even where installed, are used only for essential needs. Measures have been put in place for Energy consuming (heating as well as cooling) equipments should be supported with the use of solar energy and air source heat pumps rather than using the conventional electricity.
- The buildings in the campus have been constructed to ensure adequate normal lighting. and ventilation to reduce the energy requirement to bare minimum.
- The campus has initiated an Anti-Plastic drive initiative by using paper / e-banners for all its programs
- Initiation of Plantation drives at University of Kashmir with Development of Chinar Heritage Park at Naseem Bagh is in progress. Work towards the development of this park was taken up on war footing and 694 Chinar trees have been numbered already and are being scientifically treated to restore their health. The process has changed the ambience of the Chinar Park, Naseem Bagh which is pristine and beautiful on account of the magnificent Chinar trees.
- Tree Guards fixed for protecting and supporting the decorative climbers at various sites, in main Campus, and Naseem Bagh Campus.
- University of Kashmir is also trying to make efforts for proper maintenance of Herbal Gardens and harvesting of Rain water.

7. Innovations and Best Practices

7.1 The following are some best practices and innovations of the University

- Introduction of choice based credit system in the Curriculum. The curricula is being regularly updated and revamped with inputs on fresh reading material, resource material to provide contemporary exposure to the students. Various national and international interactions provide ample opportunity in absorbing the best teaching practices across the globe.
- Most of the programmes extensively deploy guest speakers to enrich the experience of the students.
- The University is encouraging the Departments/ faculties to invite guest speakers from other Institutions/ Industry to enrich the knowledge base of students through sharing of ideas and good practices with equal emphasis on the Faculty Development Programmes.
- Implementation of e-governance project resolved governance issues electronically with the inception of DIQA web portal adding values as information repository.
- Online submission of Annual Report and AQAR formats for all Departments and individual faculty members was amended in order to be more user friendly and comprises all vital implication and indexes. The link is available on University website: www.kashmiruniversity.net and DIQA Portal.
- Regular Annual KUAA meet.

7.2 Provide the Action Taken Report (ATR) based on the plan of action decided upon at the beginning of the year

Plan of Action	Achievements
Setting benchmark indices for assessment of quality indicators	The management information system (MIS) has been successfully implemented for assessing the quality indicators.
Revision of Performance Based Assessment Scheme for the faculty of Kashmir University	DIQA has revived the Performance Based Appraisal System (PBAS). With the PBAS, the institute evaluates faculty members on their teaching and research performance. The institute has instituted Best Teacher Award given on the basis of student feedback and peer review system. The evaluation of student feedback helps the faculty members in improving upon the teaching pedagogy and also motivates the faculty members for doing better research work and publications.
Focus on Faculty Development programmes with laid emphasis on Visiting Professors from international and national level	DIQA has impressed upon various departments and research centres to organize maximum number of faculty development programmes which resulted in the organization of 21 faculty development programmes for the year.
Introduction of new courses with focus on Entrepreneurial Development Programme.	A number of certificate entrepreneurial programmes e.g. Repairing of Mobile Phones, Solar cookers, Laptops, transformers etc have been introduced by the institute to enable the students to have an edge over their professional degrees and to be suited in the outside market.
DIQA Web Portal as information repository of the Kashmir University.	With the implementation of e-governance project many governance issues are being addressed electronically. The inception of DIQA web portal have brought all the Department /Faculties / Section / Centres under one umbrella to update their information. Online submission of information for Annual Report and AQAR of all Departments and individual faculty members which was introduced earlier in 2013 was amended in order to be more user friendly and comprises all vital implication and indexes. The link is available on University website: www.kashmiruniversity.net and DIQA Portal

Sensitized all affiliated and constituent colleges for filling up DCF II by colleges for All India Survey on Higher Education (AISHE) to imbibe the authority to have a first class information about college enrolment, courses etc in the country.

7.3 Give two Best Practices of the institution

- In pursuance of the National Plan of the National Assessment and Accreditation Council (NAAC), University of Kashmir set up the directorate of Internal Quality Assurance (DIQA) for realizing the goal of quality enhancement and sustenance. Accordingly, one of the major practices established by DIQA is to document the activities of the university so that DIQA not only works as the main documentation centre of the institute but also allows the University to address the significant weak areas effectively. The Directorate of Internal Quality Assurance with the help of Directorate of Information Technology and Support System (IT&SS) has developed user friendly software for all Departments and individual faculty members. To encourage the fast track mechanism of information, Nodal Officers have been provided a unique user name and password through which they can submit their Departmental information. In addition each faculty member was provided one user name and password through which he or she uploads their individual academic and research contribution online to DIQA. (format as Annexure-2).
- Due to the revision of the Performance Based Appraisal System (PBAS). The institute evaluates faculty members on their teaching and research performance. The institute has instituted Teacher of the year Award given on the basis of student and peer feedback. The evaluation of student feedback helps the faculty member in improving upon the teaching pedagogy and also motivates the faculty members for doing better research work and publication. (format as Annexure-3).
- Timely preparation of Annual Report and Annual Quality Assurance Report, which covers all the parameters like teaching, learning, research consultancy and extension, students progression, governance and leadership, curricular, co-curricular, infrastructure and learning resource and innovative practices of the university. The above information is sought from the departments and individual faculty members through online portal.
- DIQA ensures timely promotion of its faculty members by timely screening of the CAS and direct recruitment applications. The API score format has been drafted by keeping in view the pivotal aspects of teaching, learning, and research contributions towards the global scenario of higher education as per the UGC guidelines and amendments from time to time.

7.4 Contribution to environmental awareness / protection

The University of Kashmir is committed to becoming an innovative leader among academic institutions in the areas of environmental education and research and in the practice of environmental management and stewardship. The University is committed to the principle of sustainable development, and will use its resources in a manner that progress toward sustainability.

The University of Kashmir is committed to minimizing its impact on the environment in the areas of solid and hazardous waste, indoor and outdoor air quality, water supply and waste water and energy. The University strives to continually improve its environmental performance in these areas.

To assure environmental compliance, the University of Kashmir has a separate administrative office staffed for this purpose "Environment and Hygiene. Besides, the university has Landscape and Development division for preserving and maintaining the landscape of the campus and to assess campus performance in complying with applicable environmental laws and regulations.

The University is conducting various environmental awareness and protection programmes annually from the last 15 years. The programmes are aimed to give awareness not only to the students and employees of the university but to the society as a whole. Each year the university celebrates World Environment Week, Earth Day, Biodiversity Day, Wildlife Week, etc. by organizing seminars, workshops, road shows, cleanliness drives, cultural

programmes etc to spread the environment awareness. Various departments of the University like Department of Environmental Science, Department of Earth Science, Department of Botany, Department of Zoology, Geography, Dean Students Welfare, NSS wing are involved in various environmental awareness programmes not only in the university campus but also at Local, National and Global level.

Steps University takes to make University eco-friendly

The University Of Kashmir has taken various steps for making the university Eco-friendly. The University has preserved the Old Heritage Chinar Bagh in the campus. The university has established a solar energy system in the new Buildings like Guest house. Very recently the University has banned the smoking in the campus. Also keeping the university waste free, the waste collection bins have been setup. The wastes are segregated at source and deposited in the scientific landfill site of the Srinagar Municipality. The university uses email and voice mails most oftenly as mean of communication instead of paper. The University uses environment friendly DG sets in the campus. Besides, University has also established a mini solar plant in order to save energy. In order to maintain the Environment Quality the University regularly checks the Supply of Water Quality, Air quality and wastes generated in the campus by the department of Environmental Science, and Earth sciences.

7.5 Whether environmental audit was conducted? Yes ☐ No ☒

The university is planning to conduct the internal environmental audit, in order to enable us to use energy, water and other resources more efficiently, and save money. This will also help to baseline current environmental impacts, and benchmark progress toward sustainability.

7.6 SWOT Analysis

STRENGTHS

- The University of Kashmir has the distinction of being the first University of the J&K State in the post-independence era having being established in 1948.
- The University is located in the educational hub of the State with Sher-i-Kashmir Institute of Medical Sciences (SKIMS), SKUAST, Central University of Kashmir, IUSAT, National Institute of Technology (NIT), IIIM in the close vicinity. It has around 153 Govt. and private colleges affiliated to it. It is a multi-campus University with significant presence in Kashmir and Ladakh areas. It has its Satellite Campuses at various districts viz, Baramulla, Kupwara, Anantnag, Leh and Kargil.

- The University has a Central Library and more than fifty four seminar libraries attached to different teaching Departments. The Central Library has about six lac books and is the first library in India which has been certified as ISO 9001(2008) for its Quality Management System. The Library is connected to all the major libraries in the State. It also has a Remote Access Facility.
- The University has a State-of-the-art Convocation Complex with a seating capacity of more than 2500 people, besides there is a University gymnasium. A well equipped Health Centre, Sports facilities, two spacious Guest Houses and separate hostels for boys and girls.
- The campus is Wi-Fi enabled and has an Optical Fiber Network in place. Most of the Government colleges which are affiliated to University are connected to the University for delivery and use of IT services provided by the University for the benefit of students.

- Active student support services in the form of NSS, NCC and other cultural and sports activities are part of the University system. Further, the Center for Career Planning and Counseling is fully functional for providing requisite assistance/ facilities/placements to the students.
- Entrepreneurship is encouraged and promoted through a well established Entrepreneurship Development Cell (EDC).
- E- Governance is fully operational and decentralized administration with powers delegated to the Heads of Department/ Directors of Centres for quick decision making.
- Syllabi/ curricula are regularly updated in accordance with the latest guidelines of UGC and needs of time. The Choice Based Credit System (CBCS) has been introduced from March 2014 which would increase academic flexibility in consonance with the needs and requirements of current times.
- The University Educational Multi Media Research Centre (EMMRC) is one of the leading Centers of the Country. It provides virtual classroom facilities through EDUSAT and has bagged eight awards at the national level. E-contents in several subjects have been prepared and e-contents of Botany based on three year degree course at Undergraduate level have been uploaded on Sakshat Portal as well.
- The University has a separate Directorate of Internal Quality Assurance (DIQA) for sustaining and enhancing the academic standards and overall quality of the University.
- The high academic standards of the University can be judged from the fact that 787 students qualified the UGC-NET and 74 qualified the CSIR-NET for JRF/ lectureship in 2012 alone.
- The University has a good track record of quality research. Six hundred and eleven research articles were published by the faculty in refereed/ national/ international/ ISBN/ISSN publications in 2012. International benchmarks such as H index, Journal Impact Factor, Citation index are used to evaluate the quality of research.
- The University has created a separate position of Dean Research to promote research and facilitate submission and monitoring of research projects. A record forty five new projects were sanctioned by national funding agencies in 2012.
- The Institute of Kashmir studies, University of Kashmir conducts Masters programme for students of SAARC countries under the student exchange programme.
- The University has signed Memorandum of Understanding (MOU) with following institutions
 - Ch.CH.Valikhanov Institute of History and Ethnology, Almaty, Kazakhstan
 - Turkey Manas University, Bishek, Kyrgyztan,
 - The Xinjinang social sciences Academy, People's relationship of china.
 - The Insititue of History, Academy of sciences, Uzbekistan,
 - Mr. J.P Abraham Samson,
 - Shere-i- Kashmir institute of Medical sciences (SKIMS),
 - Department of Information and Public relations, Government of J&K,
 - University of Delhi,
 - Shinawatra University, Thialand,
 - Management Development Institute (MDI), Gurgaon,
 - National University of Tajikastan.
 - IISER, Kolkata and
 - NGRI, Hyderabad.
 - Kola Science Centre, Apatity, Russia.
 - CMACS, Bangalore
- The University has spacious and well-kept Guest houses for providing accommodation to visiting faculties, participants of national/international seminars etc.
- The University has also fairly good outreach programmes and also organizes productive skill development programmes for general masses.

- University also provides an opportunity for higher education through Distance mode.
- Centre of Research for Development, University of Kashmir is the only Centre in the J&K State which has acquired certification from National Accreditation Board for Education and Training (NABET) hence has undertaken many consultancy projects related to Environmental Impact Assessment (EIA) and formulation of Environmental Management Plan (EMP).
- On campus recruitment through Centre for Career Planning and Counselling (CCPC) have been made throughout the year, through which national and international companies recruit the students of the university.
- To accommodate students in various job oriented courses, the university established various satellite campuses vis-à-vis north, south, zakura and kupwara campuses.

WEAKNESSES

- Industry sponsored research which is necessary for producing deliverables suitable for the needs of industry is lacking and hence needs promotion/support.
- Classroom and laboratory infrastructure needs further upgradation keeping in view higher student demand.
- Central instrumentation facility is not up to the mark and hence needs further augmentation.
- Lack of institutional foreign exchange programme for students is also one of the major grey areas which deprives students and the faculty from having necessary international exposure.
- Shortage of hostel accommodation for students and research scholars.
- Limited sanctioned faculty strength as per UGC norms in certain Departments/Centres/Campuses which compromises the quality of teaching and research.
- Very scarce budgetary support for research and other academic activities under non-plan budget. Of the total budget, about 85% comprises salary and pension component and 15% is meant for all other activities including research, conduct of examinations, stationery, printing, travel, maintenance of assets and a host of other activities.
- Of the total allocation under non-plan budget, Rs. 35.20 crores are to be generated by the University through its receipts (fees etc.) and hence leaves limited scope even for the University to strengthen the existing programmes and departments/centres, not to talk of expansion and introduction of new programmes and courses.
- Even many of the Departments/Campuses are without regular non-plan budget and hence are unable to meet their daily and need-based requirements.
- No clear scheme/provision for admitting foreign students.

OPPORTUNITIES

- The University has an opportunity to grow as the '*University with Potential for Excellence*' which would ultimately open the gates for collaborative research, better funding and better opportunity for students and researchers.
- To upscale certain areas of research, such as Cell Signaling Biology, Biological Invasions, Geoinformatics for Hydrosphere, Food Processing Technology, Micellar Catalysis and Green Chemistry etc.. in which significant research has been carried out so far which provides an opportunity for establishment of specialized Research Centres in these areas.
- Kashmir being part of Himalayan biodiversity hotspot offers opportunity for exploration, documentation, digitization and inventorization of rich biodiversity of the region and in this regard Centre of Bio-diversity and Taxonomy, Departments of Botany, Zoology and Environmental Sciences of this university are playing a pivotal role. Since the biodiversity serves as a bedrock for biotechnology, the University of Kashmir has the opportunity of emerging as a leading institution in the North western Himalayan region to use biodi-

versity and biotechnology for sustainable regional development. Even such endeavours could be considered under PPP mode.

- The myriad of landscapes, lakes, rivers and other prized and distinct ecosystems that abound in Kashmir offers University of Kashmir an unique opportunity for studying their structural organization and functional integrity and also to evolve effective, useful and implementable strategies for conservation and management of these ecosystems and habitats for sustainable human progress and development.
- Kashmir being an international tourist destination, a provision to facilitate visits of overseas and Indian scientists working in premier institutions needs to be created so that the visiting scientists are encouraged to participate in short-duration teaching and research assignments at the University of Kashmir.
- Since two streams of Engineering Course have taken off well, and in light of that two more wings with mechanical and electrical engineering courses have been made operational from the start of this ensuing year at Zakura Campus. Other professional colleges/institutions and launch of new courses in tune with market needs also could be highly rewarding keeping in view the large number of applicants and limited number of seats available for various courses as on date in the University.
- As UGC Academic Staff College already exists in the University, it needs further support so that more number of faculty development programmes/capacity building programmes/brainstorming sessions are organized for the faculty members of this University and colleges affiliated to the University and for teachers of other institutions as well.
- The strides made in the use of ICT technology in the teaching-learning process through the efforts of EM-MRC, a huge opportunity exists to reach out to those who are not able to join the University on regular basis through creation of quality e-content, organization of lectures through A-View, EDUSAT etc. Hence the programmes offered through Distance Mode could be further strengthened and upscaled through use of ICT initiatives.

THREATS

- The non-implementation of some of the UGC guidelines, particularly with respect to the age of superannuation is one of the major threats. Some of the experienced and senior faculty members have left or in the process of leaving the University for other universities particularly the Central Universities, where the minimum retirement age is sixty five.
- The high student demand ratio and inability of the university to accommodate them results in a considerable number of bright students moving to other institutions.
- There is no provision/scheme for retaining the meritorious Alumni for serving their alma mater and the society on the whole.

8 Plans of institution for next year

- To enhance the domain of online submission of AQAR format so that it will cover all sections / units of the University.
- To access the teaching pedagogy of the faculties from the feedback of students.
- To achieve tangible results in a perspective plan.
- To establish procedures and modalities for institutional and academic efficiency and excellence on the basis of quality bench marks /parameters.
- To speed up the process of promotions of teaching faculty under direct recruitment and CAS.
- To establish an innovative grievance mechanism cell wherein the Vice-chancellor shall listen to the problems of various sectors by inviting few representatives and senior officers of the university on the nature of brain-storming sessions, which reflects on various issues related to the administrative, academic and financial management of the University
- To increase the Infrastructural facilities at the Institute
- To Strengthen the existing International MOUs and entering into newer MOUs.
- To Develop International Linkages and tie-ups for exchange of Faculty and Students.
- To Focus on Faculty and Staff Development.
- To over look the Quality improvements wherever possible in Administration, Examinations and other Processes

- To Upgrade the DIQA Web Portal to an extend so that it may behave as massive open online course and source for all its stake holders.
- To Work towards other National / Global accreditations and rankings as a quality assurance measure.
- To get the status of university with potential for excellence (POE).
- To organize various international and national seminars/ conferences.
- To make the satellite campuses of Kupwara, Leh and Kargil functional for the far flung students.
